

Electric Vertical Drape

Operate by remote control?
Automatically close at sundown?
Operate all your drapes together?
Open and close at the same time each day?

You can have a vertical drape that does all this with **Electric Decomatic Vertical Drapes**.

Start with a **Decomatic Vertical Drape** and add an **Electric Motor**. You have the beginnings of a system that will obey you.

With a wall switch and/or an infrared remote control you can operate **Electric Decomatic Vertical Drapes** singly or together.

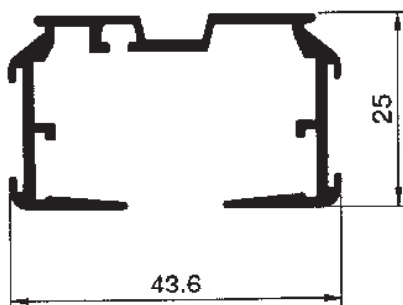

Add a timer and they will open and close at the same time each day.

Add a twilight sensor and they will close in the evening when it becomes dark.

Style and simplicity – **Electric Decomatic Vertical Drapes**
