Vertical Drape

The **Decomatic Vertical Drape** is the stylish answer to your needs if you have large windows.

Whether you need effective light control, privacy or decorator style, the **Decomatic Vertical Drape** has it all.

You have creative flexibility with a wide choice of colours and fabrics. You can block out most of the light with "blackout" fabrics or use translucent fabrics to give a soft filtered light.

Dust falls off **Decomatic Vertical Drapes**.

Elegant options allow you the most effective control of light.

Choose from Standard Chain and Cord operation or full electric control over tilt and stack. Electric control is only available from Aviance Blinds or its agents.

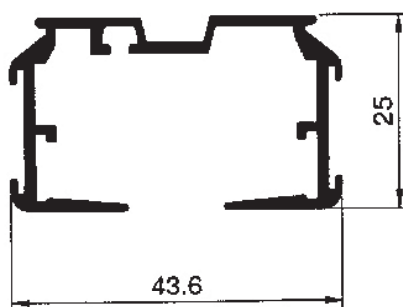

Standard chained weights to control the drape of the fabric, optional "chainless weights".

If you have a bay window **Decomatic Vertical Drapes** can be curved.

If you have cathedral ceilings **Decomatic Sloping Vertical Drapes** will follow the line of the window.

Decomatic-Plus track
